Statement

As you are notified – there is construction of Tbilisi-Rustavi highway in progress which has been conducted by the Municipal Development Fund of Georgia and financed by Bank of Asia. According to the current project of Highway, our property (houses) on Marneuli street are in the area of planned construction works and we have been offered a compensation in order to leave our houses, compensation that is below any price standard available for current location at given time. To be more specific we have been offered 40 GEL per square meter of the land and 649 GEL (which according to current exchange rate equals to 264 USD) for living space (housing).

According to current situation on the real estate market – price for 1 square meter of land in the same Fonichala District (near Marneuli street) costs minimum 40 USD and living space minimum 600 USD.

Also we have to underline that some of the houses are shared between few families, having there a permanent living space together with the children and elder people. So considering all above mentioned compensation offered at this stage is not even the mere of what is needed in order to obtain proper housing, not to leave our families homeless.

We request your esteem enterprise to pay an attention to this issue, allocate designated committee which will take a closer look at our situation and manage to find a solution acceptable for both parties, either issue for us a proper compensation (according to market prices) which will enable us to buy new housing or provide us with the different living space in accordance to the square of the land/house we possess at given moment.
Please pay your attention to the problem given above as otherwise we will be forced to take other measures, involve political parties, make large scale demonstrations and refuse to leave our property as we cannot leave our family homeless.

Sincerely
